Geneviève Kermorgant

After obtaining her diploma in physiotherapy massage in 1994, Geneviève KERMORGANT studied Osteopathy at the Deutsches Osteopathie Kolleg (DOK). She graduated in 2002 validating her DO with a study on the "Benefits of Osteopathy for Secondary Infertility" for which she received the William Garner Sutherland price for the most representative study in the clinical field.

She then specialized in women's issues such as infertility, gynaecological dysfunction and care for pregnancy and the newborn. She practices in the south of France hand in hand with Obstetrician-Gynaecologists, midwives and specialists in medically assisted procreation.

Geneviève Kermorgant teaches Uro-Gynaecology at the DOK and teaches post-graduate course on female infertility, obstetrics and postpartum assistance in Europe and Canada, sharing her clinical experience and enthusiasm in women's health.
